Evil Among Us: Hide and Find Creator: ingamecarnageigCode: 7783-9119-3033 the perfect game to take advantage of a flashlight is this among us a parody that is much more fearless. They usually hide in the corners and sneak behind you if they see the beams from your flashlight. It is a large building with rooms and vents that will be very familiar. Hide and search for the video palace via the YouTube channel Milan Kroezan Creator: Znjp3rBoy090Code: 2984-0520-2397 Well, maybe it does not have an unforgettable name, but its map is a completely different story. Apart from the typical palace layout, much of the island is covered with greenery and water, making it very easy to find a place to hide. There are also some secret underground rooms and a few additional buildings with more than one eye meets. This map is a must-have and perfect attempt for each type of bunker. Santa's Mall video via mtl_rellik channel on YouTube Creator: mtl_rellikCode: 7782-7600-6987 Santa Mall is not a typical holiday decorated shopping space. This is a huge two-story map with many secret areas and spots. It's hard to track them all up creating wrestling gifts for players to sit on top of wall decorations hundreds of feet from the ground. Modern Palace video via YouTube channel In Make Fatal: Fatal CreationsCode: 8209-0229-1867 It is clear that creators make more palaces than anything else, but you must give credit to the modern palace to emphasize the design of the house. There aren't many squares around, but the three-story building has at least 30 excellent and hard to find spots for you to sit down. The basement also gives players access to a wide range of water that is rarely examined by researchers. Night at the Video Museum via FCHQ channel on YouTube Creator: ingamecarnageigCode: 1098-4920-5714 Night at the Museum is not a mirror of the film it's named after. Therefore, you'll need to be sure where to choose and stay away from the open areas. Pleasant Park Video via FCHQ's YouTube Channel Creator: thejokerCode: 2770-5215-7924 recalls the glory days of the original Chapter 1 Battle Royale site Pleasant Park wild game of hide and quest. If one can remember, use a map to be made of blocks of houses, a football field, and a gas station. So, you certainly won't have a hard time finding a place to camp. However, there is one small problem. Researchers will stand on the roofs of these houses to look for any frantic stragglers – so stay indoors if you plan to win. Princess Castle Creator: ingamecarnageigCode: 9348-5375-9491 There is not much that stands out with Princess Castle, but its layout has the ability to many great games. The property is divided into two main areas with a tunnel divided by it. Researchers tend to overlook this link for those bouncing from one end to the next. It's likely to end up being a red rover game rather than hiding and searching, but it's intense. Underwater Labs Creator: DumbLund Code: 8860-9125-6937 at first, you have to think that underwater labs are one of the smallest you'll ever see. However, although it may not be on the widest scale, many vents actually allow you to go to higher stories rarely accessed. Wise theme, there are certainly enough fish tanks and other marine organisms to mix with. Researchers will have a harpoon gun in hand, so don't expect this to be a picnic in the park.
